Department of the Treasury — Internal Revenue Service. This is important tax information and is being furnished to the IRS. If you are required to file a return, a negligence penalty or other sanction may be imposed on you if the IRS determines that an underpayment of tax results because you overstated a deduction for student loan interest.

Instructions for Borrower

A person (including a financial institution, a governmental unit, and an educational institution) that receives interest payments of \$600 or more during the year on one or more qualified student loans must furnish this statement to you.

You may be able to deduct student loan interest that you actually paid in 2025 as an adjustment to income on your federal income tax return. Do not contact the recipient/lender for an explanation of how to report it; see the Instructions for Schedule 1 (Form 1040) and Pub. 970, Tax Benefits for Education.

Box 1. Shows the interest received by the lender during the year on one or more student loans made to you. For loans made on or after September 1, 2004, box 1 must include loan origination fees and capitalized interest received in 2025.

Box 2. If checked, box 1 does not include loan origination fees and/or capitalized interest for loans made before September 1, 2004.

Account number. May show an account or other unique number the lender assigned to distinguish your account.

The student loan interest deduction is claimed as an adjustment to income, so you do not need to itemize your deductions on Schedule A (Form 1040). See the Schedule 1 (Form 1040) instructions and Pub. 970 for how to report student loan interest.
