Description	Current	YTD
401(k) employer match	54.67	656.00
Employer social security	162.03	1,944.36
Employer Medicare	37.89	454.68

Notes

Social security tax is 6.2% of social-security wages (gross less pre-tax medical); Medicare is 1.45% of the same base. The Kansas City earnings tax is 1.0% of wages earned within the city. Pre-tax 401(k) and Section 125 medical reduce federal and state taxable wages; the 401(k) deferral does not reduce social security or Medicare wages. Retain this advice for your records.

How Your Pay Is Calculated

Your gross pay for the period is your annual salary divided by the number of pay periods in the year. Pre-tax deductions are subtracted before income taxes are computed, and applicable payroll taxes are then withheld based on each period's wages.

Social Security tax is withheld at 6.2% of Social Security wages until your year-to-date Social Security wages reach the annual wage base, after which no further Social Security tax is withheld for the remainder of the year.

Medicare tax is withheld at 1.45% of Medicare wages, with no wage base limit. An Additional Medicare Tax of 0.9% is withheld on Medicare wages that exceed the applicable annual threshold for your filing status.

Federal income tax withholding is estimated each pay period using the information on your Form W-4 and the IRS percentage method, applied to your taxable wages for that period.

Missouri income tax is withheld based on your state withholding election and the state's withholding formula. The Kansas City earnings tax of 1% is withheld on wages earned within the city limits.

Your 401(k) elective deferral and your Section 125 medical premium are deducted on a pre-tax basis, which reduces your federal and state taxable wages. The 401(k) deferral does not reduce Social Security or Medicare wages.

Gross pay. Total earnings for the pay period before any deductions or taxes.

Net pay. The amount deposited to your account after all deductions and taxes.

Pre-tax deduction. An amount subtracted from gross pay before income tax is computed.

Year-to-date (YTD). The cumulative total of an amount from the first pay period of the year through the current pay date.

Taxable wages. Gross pay minus pre-tax deductions; the base on which income tax withholding is computed.

Employer contribution. Amounts the employer pays on your behalf, such as the 401(k) match and the employer share of payroll taxes; these are not deducted from your pay.

Understanding Your Deductions

Pre-tax deductions appear in a separate section from taxes. Because they reduce taxable wages, increasing a pre-tax deduction such as your 401(k) deferral generally lowers your income tax withholding for the period.

Post-tax deductions, if any, are taken after taxes are computed and do not reduce your taxable wages. Examples include Roth 401(k) contributions and certain voluntary benefits.
